7 Fire: Aspen IC: T2 Brook Chadwick	315 / 30% / 154 / \$648000 <ul style="list-style-type: none"> • Big Flare up – caught it • 66 Homes in the area. Fear of spotting • No More IA Response Area. Can release some resources • Closures: Voluntary Evacuations lifted at 1000 if looking good. • Safety Issues: Spotting • Resources Available for Reassignment: Contract Engines and Contract Dozers

Appendix 7

8 Fire: Brianhead IC: Demasters Report: Long (T)	71673 / 80% / 670 / \$32 M <ul style="list-style-type: none"> • Some precipitation • Working on containment in Div J & K • Suppression Repair on South end towards the North • Closures: Reduced tomorrow • Safety Issues: Rough country for Crews • Illnesses: 2 minor • Lost 2 IHC – timed out • Critical Needs: 5 T2 Crews on North End • Resources Available for Reassignment: T1 Helo
9 Fire: Potosi IC: T3 Whalen (T)	420 / 75% / 50 / \$340,000 <ul style="list-style-type: none"> • Released T1 resources • Transitioning to T4 Organization • Continue mop-up perimeter • Wind predicated, high temps
10 Fire: King Valley IC: Fox	2112 / 90% / 30 / \$400,000 <ul style="list-style-type: none"> • Expect full containment this evening • Mop up, patrolling • Final News Release today
11 Fire: Tweeds South IC: Fey	700 / 30% / 63 / \$60000 <ul style="list-style-type: none"> • Higher jump containment with moisture
12 Fire: Dry Gulch IC: T3 Castillo	64000 / 95% / 20 / 1.7M <ul style="list-style-type: none"> • Transition to T4 • Keep for another day: 4 Engines, 1 Tender, 1 IC
13 Fire: Holman IC: Rowley	838 / 100% / 34 / \$10000 <ul style="list-style-type: none"> • 100% containment by 1200
14 Fire: Tweeds North IC: Olds	1078 / 78% / 25 / \$65000 <ul style="list-style-type: none"> • Higher jump in containment
15 Fire: Limerick IC: Zumhoff	14656 / 98% / 19 / \$1.7 M <ul style="list-style-type: none"> • Containment Tonight • Control Tomorrow • 1 T2 Helo available for IA this afternoon • Transition to T4
Other Incidents	GBK <u>Great Basin Cache (GBK) Notes to add to IC Conference Call</u> Great Basin Cache (GBK) staffing: 7 days a week from 0600 until we finish. GBK Supply Office # 208-387-5104 will roll to GBK Duty Officer if we close before you do.....

Appendix 7

	<ul style="list-style-type: none">• GBK is handling heavy shipping and mobilization of national radio/communication equipment to large incident support nationally, in addition to supporting GB area initial and extended attack fires, large fire support, and resupply missions to local caches.• Trending - extremely high portions of supplies being ordered from GBK for large and extended attack fires are being returned to GBK never used. "Right Size" your supply orders based on current and expected incident need, e.g., shorter duration grass/shrub component fires likely require less lengthy personnel commitment than a fire in heavy timber.• GBK Concern - supplies sitting at incident unused, obviously lends to draw down of available supplies to support other ongoing or emerging incidents, however the number, miles and frequency of trips being made to and from incident by GBK drivers is of greater concern. We ask those planning and placing supply orders to include drivers in their risk management process.• Northern California Cache (NCK) Redding, CA. at request of GBKs will service all supply orders for GB IMT6 while on the Fahred Incident. Information has been shared and directly communicated with IMT6 - ICT2(t) Bollier, LOGS Chief Rob Cruz, and Expanded Dispatch Supervisors at Sierra Front Dispatch.
Date/Time of Next Call:	7/12/17 @ 0800 MT / 0700 PT
